WILL CONTINUE TO DO OUTSIDE CLOCK work of all kinds, as heretofore; and will give personal attention to all orders through the Post Office, or left at his old stand. Promptness and satisfaction guaranteed. jan25-dtf

Diamond Spectacles.

TRADE MARK

THESE SPECTACLES are manufactured from "MINUTE CRYSTAL PEBBLES" melted together, and are called Diamond on account of their hardness and brilliancy. It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent. less heated rays than any other pebble. They are ground with great scientific accuracy, are free from chromatic abberrations, and produces a brightness and distinctness of vision not before attained in spectacles.

Manufactured by the Spencer Optical Manufacturing Comp New York. For sale by responsible agents in every city in the Union. H. A. HEATH & Co., Jewelers and Opticians, are sole Agents for Newport, R. I.,—from whom they can only be obtained. No peddlers employed. Do not buy any unless you see the trade mark SD

Holiday Presents.

Holiday Presents.

Newport Daily News.

MONDAY, DECEMBER, 29, 1873.

KEEPING WINTER APPLES.—The facts are, if an apple be bruised with the skin unbroken, the apple does not necessarily rot, but if the skin be broken so as to give admission to the air, the apple immediately rots for, with the admission of air, fungus growth ensues. Hence worm holes and other punctures invite rot, while the pressing of the head of the barrel into the top layer of apples never rots them if the skin remain unbroken. The watery matter of the bruise dissipates, just as it does in the animal economy. There is a diversity of opinion as to the best means of handling apples at picking time; some preferring the old time practice of first sweating in heaps, and then sorting and barreling. The writer's preference is to pick carefully, and sort immediately into good sound barrels, leaving the barrels lightly covered for a few days to allow the excess of moisture, or first sweat to escape; and then to pack, pressing the head in so firmly that the apples cannot in any way move in transporting them. Thereafter, do not remove the heads except for the purpose of inspection, after which replace immediately. Every sorting of apples tends to cause them to rot, and so does alternating temperature. Keep them as uniformly cool as possible without freezing. The barrels, if tight, may be subjected to a temperature as low as twenty-four degrees for a considerable time without injury, but from this temperature they should not be suddenly moved to one much above the freezing point. Uniform and low, dry temperature is the all in all for the successful keeping of fruits for long periods. If there must be change, let it be gradual.

THE PRESERVATION OF SEED POTATOES FROM DISEASE.—The application of creosote to seed potatoes has been found to act as a preventive of the disease. The Rev. J. Crawford of Ayr, Scotland, gives an account of his experiments with this substance and their results. The eyes of the potatoes are very slightly touched with the creosote, a small painting brush being the best tool for applying it. Mr. Crawford says that those potatoes in which every eye was anointed were perfectly free from disease, while from one third to a half of those not so dressed were lost. Some of the tubers planted by him had all the eyes but two or three dressed with creosote, and in this case a few of the tubers were found diseased. On the other hand some few had too much creosote, and were consequently found completely killed. This is certainly a simple method of preventing the disease, but great care must be taken in performing the operation, the least touch being sufficient to preserve the potatoes from the attack, while one touch more will effectually prevent vegetation. Mr. Crawford expresses himself as highly confident as to the success of this simple remedy when properly applied, and until the award of the judges who have to wade through some 100 essays sent in for Earl Cathcart's prize is made known, it will be worth while trying it; for, of course, after the contents of these essays have been widely published there need nevermore be disease among the potatoes.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State-st., opp. Kilby-st., Boston

AFTER AN EXTENSIVE PRACTICE of upwards of thirty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with despatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved Inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
Boston Jan. 1873.—1yr. H 1a Thas

Newport Daily News.

MONDAY, DECEMBER 29, 1873.

On Friday evening Fall River dedicated its new city building. The establishment has cost very nearly $200,000.

Today all the mills and the American Print Works at Fall River changed back from thee-fourths to full time. The *News* says that "business is gradually improving, and everything now looks as if the coming year were to be a busy and prosperous one.'

The Chicago courts will never more be troubled with the insanity dodge in murder trials. They have discovered an infallible method of determining whether a man was sane or not when he committed murder. They hang him and then let the faculty examine his brain. This is like the old method of determining whether a woman were a witch or not. She was thrown into a pond. If she floated she was a witch and was burned alive. If she drowned she was innocent and —God rest her soul!

We have been in the habit of pointing out the New York bench of two years ago as the most corrupt bench ever known, but the recent developments relative to United States judges arouse suspicions regarding the federal courts. Delahay and Sherman and Busteed have all resigned at the threat of impeachment. Like Crocket's coon they have come down without being shot. And now, worst of all, comes Durell of New Orleans who sees his end approaching, and, with a sublimity of cheek, offers to resign if the President will give him a second class foreign mission! A man who is so drunk, so corrupt and so unjust that he is not to be allowed to remain on the bench offers himself as a representative of the United States' in some foreign country! This is an admirable way to maintain the dignity of the country and win the respect of other nations.

INFLATION.

There is serious reason to fear that when Congress meets again it will decide the financial questions of the day by starting the printing presses and pouring out a new deluge of inconvertible bank notes. A large number of Congressmen are avowed inflationists. Many who claim to be bullionists are such only in name. They will come together and agree on no measure, looking towards specie payment resumption, and by their wrangling and disputes they throw all the power into the hands of the paper money men.

The main trouble with the inflationists is their inability to distinguish between a thing and its shadow, between payment and a promise to pay, between gold and greenbacks. Senator Pratt of Indiana is said to advocate the issue of greenbacks till interest falls to three per cent. If this proposition be analyzed it will be found to contain as much sense as the mathematical poser, If two pigs weigh a hundred pounds, what will an old hog weigh?

Senator Pratt confounds money with greenbacks. Because the latter stands for the former he thinks it is the former, and that by multiplying the latter the former may be multiplied. But if greenbacks are money, if a printing press is a mint, if the issue of banknotes increases the amount of money in the country, then why stop when interest has reached three per cent? Why not reduce it lower? Of course, it is perfectly conceivable that every man should be so rich that no one would wish to borrow, in which case interest would be at zero. If the printing presses can increase the amount of money we have, then this conception may be realized.

The issue of greenbacks will make greenbacks cheap but it will not make money cheap. If a man who is worth $1,000 issues his notes to the amount of $500 they may pass at par. If he issues his notes to the extent of $1500 there is no doubt that his notes will be cheap enough, and probably any amount of them could be borrowed at three per cent. per annum in real money. Senator Pratt thinks that the more notes a man issues the more money he has.

Now what will be the effects of inflation? It will increase the amount of currency,—the apparent amount of money—in the country. The currency will be abundant, and business, particularly speculation, will be greatly stimulated. Prices will rise. Before a great while the increase of prices will have absorbed this extra issue of greenbacks, speculation will produce some great failures and we shall be in the midst of another panic. This is exactly the history of the last twelve years:—nominal money abundant; trade grown disproportionately; speculation rife; the future discounted; collapse.

If we issue more greenbacks now why should we not do so whenever money is "tight"—every Autumn, for instance? If we do this where will the thing end? In bankruptcy or repudiation. We know the road and whither it leads. We have seen Russia and France travel it; our own colonies, Rhode Island among the number, have been over the road and have learned that it leads directly to repudiation. If inflation cannot go on always, why not stop it now? Will it be easier ten years hence?

The inflationists only propose a temporary remedy. They are petitioning Congress to get us out of our present difficulties. They say nothing about the future. They shut their eyes to tomorrow and ask only that they may be relieved of their present burdens. The remedy they propose will only postpone the trouble and in a few years it will return in a severer form than today. Nothing but a gradual and steady return to specie payments will put the finances of the country on a solid basis and prevent the disastrous consequences that will inevitably follow inflation.

WASHINGTON ITEMS.

Several members of Congress have received letters asking for an investigation of the demonstrations by the laborers' strikes, and the condition of the workingmen all over the country. The matter will probably be referred to the committee on Education and Labor.

An official account of the surrender of the Virginius has been received at the Navy Department from Admiral Scott, differing in no essential particulars from the previous statements.

As there is no absolute necessity for the heavy appropriations for the improvements of harbors and rivers and fortifications, under the Engineer Bureau of the War Department, the estimates for such improvements, amounting to twenty million dollars, will probably be reduced to three millions.

The commission to select a place for a building for the library of Congress have awarded the first premiums of $1500 to the designs submitted by P. J. Petz and J. L. Smithmyer, Washington; the second premium, of $1000, to Adolph E. Alexander, of Boston, and the third, of $500, to Schulz B. Schoen and A. Cluss, of New York. Ten of the twenty-eight plans submitted were found so meritorious that the commission awarded to their authors a sum of $100 each.

Secretary Robeson, to complete the record of the investigation into the Polaris disaster, has examined the three last members of the expedition, who have very recently arrived here. There is no particular interest in the facts derived from the latest inquiries.

NEWS ITEMS.

San Francisco supports a weekly matrimonial newspaper.

Sixteen American colleges were chartered previous to 1785.

The Philadelphia Frenchmen have sent a gold medal to Thiers.

Quarries of elastic stone are springing up in North Carolina.

The Scotch journals are printed on better paper than any others in the world.

Chicago is troubled with a revolt of the working men, and is threatened with a small pox epidemic.

No person connected with the Louisville *Courier Journal* is allowed to receive a free pass for anything.

French papers state that the owners of the Ville du Havre will bring an action for damages against the owners of the Loch Earn.

The wooden nutmeg business has declined, but home made eggs of white maple are now being manufactured at Bakersville, Conn.

At a Claremont fair a considerable sum was raised by asking the panic price of $1 apiece for kisses—that is, those which took place in public.

It is suggested that the tax on passports be imposed again and placed at ten dollars. During the past year, 10,000 were signed at the state department and perhaps 5000 by our ministers abroad.

The introduction of twenty four inch shot is contemplated by foreign war departments. Artillery experts say that the weight of such an unwieldy sphere will in a great measure destroy its effectiveness.

Colorado is becoming a favorite resort of aristocratic English sportsmen, and lords and baronets are getting to be so common there that the democratic bosoms of the residents scarcely thrill at the sight of one any more.

The German delegates to the Evangelical Alliance assert that the condition of religious affairs in this country is far different from what their countrymen supposed, and pay a high tribute to the piety of American Christians.

Little boys in Milwaukee are noted for their hilarity, but the arrest of six of them for trying to drive away the tedium of existence in that city by firing at each other with their six little revolvers in genuine battle stylo, has had a depressing effect upon the juvenile population of the burgh.

STATE MISCELLANY.

The origin of the fire at the National Rubber Company's works, in Bristol, last week, is unknown. It was discovered by persons on the outside, having burnt through the roof over the room used for storing lasts, and in a short time that portion of the roof was all ablaze. The general supposition is that some of the gas-lights were left burning, which communicated to the woodwork above. The establishment was in full operation at the time, causing some confusion, but all the operatives left without injury. The alarm was promptly responded to by the fire department and citizens. Steamer No. 1 proved to be in fine working order and did good execution. The force pumps connected with the establishment were soon in operation, and twelve streams of water were thrown on the fire which confined it to the roof where it originated. The rooms underneath were completely deluged with water. The principal loss is in the destruction of the shoe lasts; enough however, were saved to enable them to continue work as soon as the building is in order. In several of the departments work will not be suspended and the whole establishment will be in operation again in a few days. The entire fire department has not been called out before for nearly two years.

At Smith's Quarries, Westerly, the usual number of men, all told 150, are working. The weather so far this season has been very favorable for working stone. The Cummings monument for Greenwood cemetery, which is to be fifty feet mean hight, progresses favorably, as does also the Worcester soldier's monument. The latter it is thought will be completed this winter. A large quantity of work has been completed for the Providence water works, and orders for the future are in.

Mrs. Patience, wife of Mr. Robbin Watson, (colored), upwards of eighty years old, was fatally burned, at South Kingstown, last week, while alone in her small cottage at Allenton, her husband being at his work nearly a mile from his house, as usual. Passing too near the fire, being partially blind, her clothes caught fire and blazed so rapidly that she was unable to extinguish it, and suffered until her loud screams hastened the neighbors to her relief, when her body was so badly burned that their aid and that of Doctor S. B. Church, was unavailing.

Ira, youngest son of Mr. Wm. Bicknell, aged 12 years, left his home at Oak Hill Mill alone last week and while crossing the Belleville pond on his way to school at Belleville, fell through the ice and was drowned, without being seen by any one, and it was several hours before the neighbors grappled him from the deep water and returned his lifeless body to his afflicted parents.

On Christmas eve there were Christmas trees in Portsmouth at the Christian church and at St. Paul's church. There were appropriate exercises at each place, and all were happy with Christmas gifts and greetings. At the Christian church an appropriate address was given by Rev. George W. Morrill.

On Christmas day there were services in the Episcopal churches. At St. Mary's a discourse was delivered by Rev. Dr. De Koven of Newport. At two o' clock at St. Mary's Church the wedding of Mr. Thomas Manchester and Miss Mary Ann Barker was witnessed by a large congregation. The ceremony was performed by Rev. Hobart Williams.

NEW YORK ITEMS.

It is now positively ascertained that Edson Bradley, the Broadway merchant who absconded to Canada, took with him nearly $75,000 belonging to others. His son still remains under arrest at Ludlow street jail.

Talmau, one of the three men who robbed the Harlem Railroad depot at Mott Haven, is arrested and made a full confession, showing the existence of an organized gang of burglars in Westchester county.

The steamboat Morrissania ran on the rocks of Hell Gate Thursday night. The passengers were greatly alarmed and escaped to the shore in small boats. Subsequently the steamer got off with slight damage.

A suit has been commenced in the U. S. district court against Robert Lindsay, John Lindsay and Alexander W. Lindsay to recover $6000 in gold as a penalty for alleged violation of section 66 of the act of March 2d, 1799, which imposes penalties for undervaluation on invoices of imported goods.

The case of Coman, Norton and Welsh, the court house commissioners, and of some minor ring men, was adjourned today, but Judge Daniels did not open the court, and it was reported that if he had they would not have answered. The court adjourned to Monday.

Miniature Calendar.

TOMORROW, TUESDAY, DECEMBER 30.
Sun rises 7 h. 21. Sun sets, 4 h. 41. Moon sets, 4 h. 12 m. a. m.

LOCAL AFFAIRS.

—Spread the ashes.

—The sleighing was never better.

—"Old Prob" speaks of another storm.

—The new torpedo launch will be tried tomorrow.

—A children's party was held at the residence of Wm. P. Clarke Saturday evening.

Prof. James H. Wilson is spending the holidays with his friends in this city.

—We understand that Mr. George Popple is confined to his home on Fir street by indisposition.

—The wicked stand on slippery places but many of our readers could not this morning.

—Mr. Peter W. Wilkey of the custom house is the fortunate possessor of thirty two grandchildren.

—From the present condition of our sidewalks, the bone setters will have an increase of business.

—The steamer Old Colony did not arrive at her dock at this port until 1:30 P. M. yesterday, owing to the storm.

—The Rev. Mr. Allen, formerly of this city, preached yesterday at the United Congregational church.

—A delegation of Hercules Engine Company No. 7, will go to Bristol this afternoon to attend a social at that place this evening.

—Mr. Lawton of the firm of Nolan & Lawton, of New York city, is making a brief visit to his friends in this place.

—We regret to announce the indisposition of the Hon. Pardon W. Stevens. It is to be hoped that his illness is only temporary.

—By order of the chief engineer the reservoir covers were yesterday cleared of snow so that they would be accessible in case of fire.

—Gen. Hazard, of this city, starts for Florida in a few days, where he will spend the Winter for the benefit of the health of his son.

—Saturday evening an elderly gentleman was run over by the mail wagon of the Kinsley Express Company. He suffered no serious injuries.

—A vessel arrived in our harbor a few days ago with fresh herring packed in ice. They were for the Philadelphia market and came from Grand Menan, British Provinces.

—The schooner Edward F. Newton, blown ashore here, was on her way from New York to Somerset with a cargo of scrap iron.

—Canon Charles Kingsley, of England, is expected in this city in a few days. He will be the guest of Mr. Dalch on Catherine street. It is to be hoped that Newport will have the pleasure of hearing from him.

—The schooner A. C. Watson, McKay, master, of St. Johns, from Port Johnson for St. Johns, with coal, sprang a leak on Friday and put into Dutch Island harbor and ran aground with four feet of water in the hold.

—Prof. J. F. O. Smith's orchestra will furnish the music for the social of Aquidneck Engine Company No. 3, on Wednesday evening. B. W. Davis has been engaged as permanent prompter for this orchestra.

—A small black horse belonging to Dr. Stanton withdrew from the medical profession last Saturday night. He passed in his checks and trotted off to the happy hunting grounds where there are no doctors and horses are not called up out of a warm stall at two o'clock of a January morning to make a professional call.

—The repairs on the building of the Shiloh Baptist church having been completed, the edifice will be re-dedicated on Wednesday evening, services beginning at 7½ o'clock. The sermon will be preached by Rev. N. J. Wheeler, of the Central church, and the pastors of other churches, of the city, will be present and take part in the exercises.

—The suggestion that the sale of the steamers Jesse Hoyt, Plymouth Rock and Fall River by the United States Marshal, at this city next Friday, was in Jay Gould's interest is said to be without foundation. The sale is ordered by the district court on libels filled by other New York parties, while no order or decree has yet been made in any libel brought by Jay Gould or in his interest.

—There is on exhibition in Ward's window a fine picture which will be presented to the fire company of this city, receiving the largest number of votes at the fair at the Aquidneck Assembly Rooms this evening. There will also be an appropriate present for the military companies to be contested for in the same manner. The Aquidneck Engine Company have presented the fair with two fifteen pound fruit cakes which will be voted away this evening.

—A little yellow dog learned by sad experience last night that it is sometimes the part of wisdom to keep one's mouth shut. He went to church and would undoubtedly have been allowed to remain and relax himself beside the balmy register, but he spoke out in meeting, and forthwith he was sized under a suspension of the *habeas corpus* act and cast out of the synagogue into a cold street where was whining and chattering of teeth.

A NOTICE TO CHESS PLAYERS.—A chess table and a set of chess men have recently been presented to the Redwood Library. The need of a place where chess players could meet to play their favorite game has long been felt, and it is hoped that many will avail themselves of the opportunity now offered. It is hoped, also, in view of the approaching chess tournament, to be held in connection with the Centennial Exhibition, when contestants from all the states are expected to take part, that Newport will not be behindhand in sending her quota of players to join in the fray. To accomplish this, however, will require an early and constant practice of the game by the votaries of Caissa.

THE STORM.—The storm of Saturday night was very severe and the wind yesterday blew severely. Several vessels put in for a harbor and not withstanding the gale held to their anchors and suffered no serious damage. A small schooner, the Edward F. Newton, Capt. Ellis, went ashore on the flats on the south shore of the harbor. She lies easily and will be got off without serious damage at high water. Another schooner is a ground to the westward of the above. She made several unsuccessful attempts to get off yesterday. The wind played its antics with awnings and signs. A brick from an adjoining chimney blew off and fell through the sky light in John H. Cozzens & Son's clothing store.

THE CATHOLICS AND THE PUBLIC SCHOOLS.

BY THE HON. A. M. KEILEY, MAYOR OF RICHMOND, VA.

A recent occurrence, to which it is not necessary to make further allusion, has given a new impulse and in some sort a new direction to a question which for over thirty years has excited more or less of interest in the United States—the relation of the Roman Catholic church and people of this country to the system of public education which generally prevails. It is, on many accounts a most interesting question, but especially so far as the people and government of the Union are concerned in what may be called its *objective* aspect—that is, as affecting the position which the large body of citizens professing the Catholic faith assume toward a public institution of almost every state of the Union, founded on repeated acts of legation, oftentimes in the solemn form of constitutional enactment, and fortified by such a majority of the people of every state as has attended scarcely any other institution of our country.

I make no apology for saying in advance (because if this paper has any value it is referrible to this circumstance) that I am

A ROMAN CATHOLIC LAYMAN,

an American citizen, proud of my country, and profoundly convinced that, with all the confessed or imputed evils of her government, she is the freest and happiest on the earth today, who feels that his church is today more independent, more securely grounded, more fruitful of promise, more vigorous and prosperous here than in the oldest Catholic nations of Christendom, and who freely concedes that these facts and conditions impose upon him and his brethren, in an especial manner, the conscientious obligation of a cheerful obedience and prompt support to all lawful commands of the civil power, the more particularly in view of the form of our government, which, as nearly, I presume, as human wisdom can accomplish it, is the direct reflex of the will of the whole people.

And I assure my Protestant fellow-citizens that in what I have to say I express the convictions of hundreds of thousands of my fellow Catholics, who gratefully remember the public schools as the source of whatever education they or their children possess, and who know that among the most distinguished laymen and the most pious and learned and useful priests of the Catholic church in America are those whose only early secular training was in the public school.

THE SCHOOL SYSTEM.

I formulate their opinion and my own when I say that *the imparting of sound, useful, and exclusively secular knowledge by teachers of suitable acquirements, skill, and character, chosen mediately by the people and paid for out of the public treasury, is, under the conditions prevailing in the United States, a wise, beneficent, and just system, and impugns no right of conscience.* That this view is entertained by a vast body of the Catholic laity of the Union could not be more conclusively demonstrated than by the unbecoming abuse with which its advocates are in certain quarters assailed. Vituperation is the common accompaniment of weakness, and is as often an indication of want of power as of lack of sense.

THE ACTION OF CATHOLICS.

I may add, further, that during the past quarter of a century the Catholic people of the majority of the states of the Union have been repeatedly called on to express their views, directly or indirectly, on this question at the polls, and have never raised the banner of hostility to the public school; that in the legislatures of any state Catholic votes have aided in the extension and perfection of the school laws; that in every large city in the country pious Catholics have gladly given their services as members of the boards of trustees; that Catholic teachers have in every state sought and received employment in the free schools; and that Catholic children by thousands are now and for many years have been the glad and uncontaminated recipients of their advantages. To ask these to join in a wholesale and sometimes ribald abuse of the system arouses a stronger emotion than contempt.

THE GRADUATES OF PUBLIC SCHOOLS.

That bad men have come from the public schools is an objection so puerile that but for its constant iteration, as though it involved an argument, it would not deserve notice. I beg to know what institution or station is a guaranty of either wisdom or virtue. The sanctities of the Papal chair and the special inspiration of the Holy Ghost did not preserve Honorius the First from dangerous compromise with heresy, or Alexander the Sixth from the most scandalous profligacy.

CLERICAL EDUCATION.

But let me ask, as more germane to this discussion, What are the fruits of a peculiarly clerical control of education, as exhibited today before the gaze of the whole world? Who are they who are plundering convents and monasteries in Mexico, the South American republics, Spain, and Italy? Who are they that are confiscating the possessions of the church in all these states? Who are they who have torn from the trembling hands of Pius the Ninth the patrimony of his predecessors and crowded his declining days with sorrows? Who are they whose godlessness and license and persecutions have evoked the bitterest remonstrance and reproach at the hands of the Head of the Church on Earth? Not Protestants, or the product of the public schools; but Catholics, trained for much the larger part in schools exclusively under the control of Catholic priests or members of Catholic religious orders.

A MATTER OF CONSCIENCE.

The next objection is an adroit appeal to the love of justice and fair play, which is an honorable characteristic of the American people. It is wrong, say those who advance it, to tax us for the support of schools which we do not use. If by this it is meant to assert that the conscience of a Catholic forbids him to send his children to a public school, I take issue as to the fact. The canons of conscientious obligation do not vary with the lapse of a few years. Conscience has nothing to do with the expediency or compromise. If it is unconscientious today in New York to send a Catholic child to the public schools, it was unconscientious thirty years ago. But thirty years ago the

CATHOLIC BISHOP OF NEW YORK—

as great a theologian and as orthodox as the Catholic editor of today—bent his great intellect, and influence, and energy to the single purpose of the complete secularization of the public schools. He did not desire to drive the Catholic children out, but only the Bible.

THE QUESTION OF TAXATION.

But if by this objection it is meant to affirm that the state has no right to spend public money for purposes in which all the citizens do not equally participate because of accident, or convenience, or choice, or interest, or what not, then the argument proves too much.

A few occupy almshouses; yet all are taxed to support them. The great cost of the administration of justice is born by all, in precisely the same ratio that the expense of the public schools; yet many citizens pass their lives without invoking the aid of the civil tribunals. We are all taxed for a fire department; yet nothing can be more unequal than the interest of various citizens in its labors. And the same is true of almost every department of public administration.

It is not the circumstance that all *do*, but that all *may* avail themselves of or be directly benefited by a state institution that justifies the use of public money in its support.

WHO FIRST RAISED THIS OBJECTION.

I may remark that this was the earliest form of objection to the public school system of the United States; but the proponents of the objection then were the wealthy, who said: "We pay and propose to continue to pay for the education of our children at schools of our own choice. What right have you to tax us for the education of the children of others?" But the answer was too obvious. You are not taxed for what you *must* accept, but for what you *may* accept. You may have your private watchman; but you must also pay for the public watchman. You may resolve to submit all your civil disputes to arbitration; but you must help to support the civil tribunals, nevertheless. A New Yorker may never walk or drive in Central Park; but you have the privilege of enjoying them.

INSUFFICIENCY OF HOME INSTRUCTION.

The next objection is that the system of public education circumscribes the parents' freedom, without diminishing his moral accountability. To this I reply that by the hypothesis the education is exclusively *secular;* and, if this be so, I do not understand what *moral* accountability can attach. If the demands of school were so exhaustive of time as to exclude moral influences and training, there might be some force in this; but if the waking hours of a child are sixteen *per diem*, he is awake and subject to moral and intellectual influences 112 hours during each week. Now of these

NOT ABOVE THIRTY

are spent in school, and if, with no adverse moral training at school, the influence of home and Sunday-school and church and good companions during the remaining eighty two hours of the week do not suffice to form the moral character of the child, the fault may be in him, or in his parents, or his priest; it certainly

CANNOT BE IN THE SCHOOL SYSTEM,

and I may add that, if all these potent and constantly applied influences fail, it would be absurd to expect success from the ten or fifteen minutes a day of religious instruction which is notoriously all that is afforded in the ordinary parish school.

But suppose the public school system destroyed, and what substitute is proposed? Let us remember that the state, as well as the parent and child, is vitally interested in an educated citizenship. Experience has shown that the power, stability, and progress of the state depend in large measure upon the intelligence of her people.

THE RIGHT OF THE STATE.

to an educated people is an outgrowth, therefore, of the right and duty of self-preservation, which are inherent in all associations, of whatever nature or purpose. Looking at the question simply from this point of view, and ignoring the right which every created intelligence has, by his constitution, to learn and know, I contend that the right of the state to a well-taught population stands upon the highest grounds.

Now, destroy the public school, and in this country (and it will be observed I have confined my proposition to the conditions found here) what possible substitute could be found?

NO ONE EVER HAS OR EVER CAN

propose a system which can pretend to supplement it. It has never been found here, and never found in any country whose conditions, especially as to the form of government and the multiplicity and equality of denominations, at all resemble ours.

Until some such plan is proposed we must be content to have our schools of learning, like our schools of labor and of art, completely secularized or completely destroyed. Wherever the zeal or piety or opportunity of the Church succeeds in erecting by the side of the public school a Catholic school of equal or approximate advantages, and the added grace of a moral training, let us avail ourselves of it, and thank God for the privilege; but strike no blow at a system to which so many thousands are and for a long period to come must necessarily be confined in seeking the intellectual elevation of their children. Above all, let us scorn to whine about the petty tax which we cast into the general lot for the support of a system which the deliberate judgment of our brethren approves with such signal unanimity.

It is a system which for a century has taken no step backward.

EACH YEAR HAS MULTIPLIED ITS FRIENDS,

expanded its scope, and deepened its hold upon the affections of the people who have paid for it, used it, and watched its operation and results. Never introduced into any commonwealth without opposition, yet, once introduced, it has never failed to take vigorous root. Here and there certain details have been assailed; but the system itself defies assault, and in the enlightened and mature opinion of a people proverbially alive to their interests, it has, after protracted trial, vindicated itself as the cheapest and best system of public education adapted to our conditions yet projected. From the imperfections attending all the contrivances of man it is confessedly not free; but this imposes on us the obligation to reform and perfect, not to destroy.—[*New York Independent.*

Corns.—Relief in five minutes. DR. CRISPIN, 179 Broad street, Providence, R. I.

PIMPLES AND HUMORS ON THE FACE.—In this condition of the skin, the VEGETINE is the great remedy, as it acts directly upon the cause. It cleanses and purifies the blood, thereby causing humors of all kinds to disappear.

A Manual of Health.

An edition of between nine and ten millions of copies of a very useful work is now ready for gratuitous distribution, and can be had for the asking at any drug store in the United States, the British Colonies, Spanish America or Brazil. The work referred to is Hostetter's Almanac for 1874. The medical portion of it treats of the various ailments to which the human system is subject, and sets forth the peculiar properties of Hostetter's Stomach Bitters—the purest and best tonic at present known—as a preservative of health and strength, and as a remedy for debility and disease. The Almanac is printed in all the principal languages of the civilized world, and reaches a larger number of families and individuals than any other medical treatise that ever issued from the press. No man or woman who has a due regard for that choicest of heaven's blessings, bodily vigor, should fail to read the plain, simple and convincing articles which this truly practical publication contains. The miscellaneous matter is varied, instructive and amusing, and the calendar department copious and comprehensive. Hostetter's Almanac is, in short, a household convenience, adapted to the use of all classes and callings. The farmer, the planter, the miner, the merchant, the mechanic, the laborer, the professional man, all need it; and to invalids of both sexes it is literally an article of prime necessity. The medical technicalities which render so many medical treatises useless to popular use, intelligible to the general reader, have been carefully avoided in this pamphlet. All is clear, explicit, forcible, and reconcilable with reason and common sense.

The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two-cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood.

CHOICE BUTTER.

GENERAL NEWS.

FROM WASHINGTON.

WASHINGTON, Dec. 27.—The appointment of Caleb Cushing to be minister to Spain was dictated by Secretary Fish, who is anxious to have a representative at Madrid who will work in harmony with the State Department. In the recent diplomatic correspondence with Spain concerning the Virginius, General Cushing acted as legal adviser to the Secretary of State. His appointment will be very acceptable to Spain, he is known to be unfriendly to the Cuban insurgents and to the United States interfering with Cuban matters. He is thoroughly familiar with Spanish politics and diplomacy, and it is conceded on all sides that he will make an able representative of our government. It is understood that Cushing will sail early in January for Madrid, Sickles being anxious to retire at once. Senator Sumner thinks the appointment of Cushing the best that could have been made.

ATT. GEN. WILLIAMS.

Attorney-General Williams has received several despatches from Oregon in regard to the charges made here in relation to the alleged removal of the District-Attorney Gibbs for improper reasons. The fact appears to be that although Mallory has been notified of his appointment in the place of Gibbs, the latter has been retained in office especially to try cases of which complaint has been made. The trials have taken place during the present month, and the last were disposed of the past week.

Under date of December 24 Mr. Williams received a despatch from Portland saying that two of the cases had been tried and the defendant acquitted; that the same result was expected in the other cases, and no foundation existed for a suit. Under date of December 27, he received another despatch as follows: "Remainder of suits nonsuited for want of evidence. The opinion is universal that Gibbs deserved removal. The result completely vindicates your action. Seven of the jury have united in a statement that Gibbs's assertions are false." There is no delegation on the way from Oregon to contest Mr. Williams's confirmation.

The judiciary committee of the Senate has not been in session during the past week and only three members have remained in the city, and consequently there has been no report agreed upon. It is true, however that individual members of the committee, previous to the adjournment made statements which are regarded as absolutely precluding favorable action by the senate in the matter. While the President has since his return stated that he did not intend to withdraw the nomination, there is good authority for the assertion that he is not raising and does not intend to raise, any issue whatever with the senators in regard to the matter, leaving action in the case wholly to their judgment.

OFFICIAL CARRIAGES.

The general talk here and throughout the country over the carriages kept by different departments and officials has become so great that a number of Republican Senators and members say it will not do to let the matter go without a full investigation. A number of officials are also anxious it should take place on the ground that they have been misrepresented. It has been suggested by some that the house authorize a commissioner to send for all horses and vehicles purchased with public funds and collect them at a given hour in the space in front of the capitol.

NEW YORK.

NEW YORK, Dec. 28.—U. S. steamer Juniata, Commander Braine, from Santiago de Cuba, with 102 persons formerly of steamer Virginius, arrived here this evening. She has had a strong northeast gale for the last five days. One hundred miles east from Hatteras spoke schooner Eddie Waters, from St Helena for New Bedford, 52 days, short of provisions, and supplied her.

MISCELLANEOUS.

HAVANA, Dec. 28.—The *Voz de Cuba* says that it is rumored that General Burriel has been relieved of the command of the eastern department by orders from Madrid.

INDIANAPOLIS, Ind., Dec. 27.—The train which left here on the Pittsburg, Cincinnati and St. Louis Railroad last night was thrown from the track outside of the city by an open switch and was abandoned. The regular Louisville train last night went through, but no train has arrived from Louisville since 8 o'clock last night.

SAN FRANCISCO, Dec. 28.—Twenty Mexicans and several Americans, all armed, entered Kingston, Fresno county, California, on Friday night, seized twenty citizens, bound their hands and feet, then robbed the two stores and town, getting about $1-000 in money and a large quantity of jewelry and ribbons. They escaped, but the people are in hot pursuit.

BOSTON, Dec 29.—Saturday morning United States Marshal Usher with a corps of deputies proceeded quietly to the wholesale department of Jordan, Marsh & Co., with a warrant issued by Judge Lowell of the United States district court commanding them to take possession of the books and accounts of the firm covering the business from 1869 to 1871.

WHY THE BOOKS WERE SEIZED.

The information upon which Judge Lowell issued his warrant for the seizure was collected and presented by Mr. N. W. Bingham, special agent of the Treasury department, and his assistants. The allegations are that for a term of years Jordan, Marsh & Co., have defrauded the government by means of false invoices of their importations at this port. It is charged that some of their invoices do not contain a true statement of the cost, market value and dutiable charges that should appear therein, and that upon other invoices appear fictitious discounts, by which the government has lost considerable revenue, some directly and more indirectly, the latter by changes of rates effected by false invoices.

POSITION OF THE FIRM.

Meanwhile the members of the firm protest that during the time that they have been in the importing business no law has been violated for their benefit, and no duties evaded with their knowledge or consent. Intimations have come to them from time to time that the revenue officers were on their track, but they paid no regard to them, as their business was done openly and above-board, and because they were perfectly willing that any officer of the government, or any person having a right to inspect their business, should do so to his heart's content.

CLEVELAND, O., Dec. 28.—The following communication was furnished to the agent of the Associated *Press* tonight:—

The strike now in operation on the leased lines of the Pennsylvania Railroad Company, is in direct violation of the rules of Brotherhood of Locomotive Engineers. My advice to every member of the Brotherhood that has quit work on account of the strike is to go to work at once, and to use every influence in their power to induce all persons engaged in the strike to resume work and to desist from any interference with the company's property or men. In my opinion no dishonor will be attached to any man who accepts a situation from the Pennsylvania Railroad Company during their present difficulties. (Signed)

CHARLES WILSON,
Grand Chief Engineer.

MADRID, Dec. 28.—Castelar, Salmeron and Figueras held a conference yesterday. The *Correspondencia* thinks it will result in a complete agreement; but the *Imparcial* and *Diario* say that an understanding is impossible. The report is reiterated that the Spanish government requires of the United States restitution of the Virginius and payment of indemnity.

The Madrid government has not only refused to accept the resignation of Captain-General Jouveller, which was forwarded on the 4th instant, but has granted him extended and extraordinary powers. The nature of these powers is not yet known, but it is supposed they embrace the authority to declare the island in a state of siege, should the captain-general find it necessary. The home government also offers to send additional re-enforcements.

CHICAGO, Dec. 28.—Ex-City Treasurer Gage yesterday transferred to the city his entire real and personal property, amounting in the aggregate to $528,500, and including $117,500 certificates of suspended banks in which he had city funds deposited. The valuation of the property surrendered was made by the corporation lawyers, upon the best information obtainable, and is probably no more than will be realized in cash from it.

CINCINNATI, Dec. 28.—The Pacific express train of the Pennsylvania Central Railroad left New York Christmas, and was delayed on the road at Dennison, Ohio, where a sheriff boarded the train with a *posse*, for protection. At Columbia, in the eastern suburbs of this city, at midnight, it ran into an open switch, and struck some cars on the side track, smashing the engine slightly and injuring the engineer. The passengers reached this city safely.

PERSONALS.

..... Waste paper is being collected and sold in New York for the benefit of the Pope.

......Professor Goldwin Smith is spending his Christmas holidays at Oxford, England.

......Gov. Beveridge was appropriately selected to deliver the dedicatory address at the opening of the Champaign County College, in Illinois.

......The Rev. Robert Laird Collier of Chicago is defendant in a suit whereby real estate brokers seek to obtain a percentage on the amount paid for his late church.

......Under the general reduction of the hours of labor, a western lecturer announces that he has reduced his time from an hour and a half to an hour and a quarter.

......It is gravely related in China that, at the audience given by the Emperor, "the ambassadors were so overwhelmed by the augustness of his imperial majesty that not one of them could speak a word, and most of them had to be led out in a fainting condition."

......The ages of notable persons now spoken of in France are as follows: President MacMahon, 65; Comte de Chambord, 53; Prince Louis Napoleon, 18; Comte de Paris, 35; Duc de Chartres, 33; Duc de Nemours, 59; Prince de Joinville, 55; Duc d'Aumale, 51; Prince Jerome Napoleon, 51; M. Thiers, 76; M. Gambetta, 36.

......Among the recent applicants for commissions in the state militia was a citizen of Boston who served honorably in the Mexican war and was a lieutenant in the rebellion, and yet he could neither read nor write. It would be difficult to find a parallel case.

......Virginia City, Nevada, sends a silver brick to the commander of the British ship Niobe, for his action in the case of the Virginius, bearing this inscription: "Lambercon Lorraine: You are a 'brick'; this is another—presented by Americans who love Humanity and its manly defenders. Virginia City, Nevada, U. S. A., 1873."

......Lieu. Col. Fred. D. Grant, son of the President, who is now on Gen. Sheridan's staff and stationed at Chicago, has been ordered to Washington, and will be assigned to duty in the mustering and disbursing branch of the service. He will have but little to do, as the work of mustering and disbursing is now limited and very light.

......Judge Busteed, who stands in great danger of being investigated, with a view to impeachment, has shown that better course which was adopted by Sherman and Delahay, and will at once resign his position and retire to the pleasures of dignified private life, with none to molest or make him afraid.

PERSONAL.—The Washington correspondent of a Pittsburg paper gives currency to this little story. The President, General Sherman and the Secretary of the Treasury occupied a box at Ford's Opera House a few evenings since. The star performer was Little Nell, and during the representation she sang a song, improvised for the occasion, in which there were several local hits, and among them the following:—

And there is our great financier,
He'd pay out his last dime,
In resuming specie payment,
Five dollars at a time.

The President immediately became convulsed. He slapped Richardson on the back, and laughed until he became red in the face. This is said to be the first time the President was ever known to laugh in the theatre.

GOOD PUN.—*Lippincott's* publishes the *Atlantic* for defending Ward's Shakespeare, which, it says, is a statue of a celebrated actor in "Hamlet;" it makes fun of the *Atlantic* for puzzling between the real and the ideal appearance of Shakespeare. We bashfully propose a way to reconcile these critics: Everybody remembers Dr. Holmes's plan to celebrate the discoverers of anaesthetics, by statues of Morton and Jackson, with the inscription "To Ether." We suggest that Mr. Ward add a figure of the "ideal" Shakespeare to his "real" one, with the words "To Booth."—[*N. Y. Graphic.*

PRATT'S ASTRAL OIL.

WHAT IS IT? Astral Oil is a derivative of petroleum, produced by a new and improved process of manufacture, which gives it all the good, without any of the objectionable qualities of ordinary refined kerosene. Explosion is guarded against, and families can burn ASTRAL OIL with THE SAME ASSURANCE OF SAFETY AS THEY CAN GAS.

ITS QUALITIES—It is perfectly pure, containing no mixture or chemicals. It gives a clear, uniform and beautiful light, unequalled even by gas. It is free from objectionable odors. It burns in the ordinary kerosene lamps. It is always uniform in quality.

ITS SAFETY—The Astral Oil may be relied upon as non-explosive and in every way perfectly safe to use. If, while burning, a lamp be upset and broken, the contents will not explode or take fire. It is the safest oil that can be made. Persons once using it will have no other. For sale by Grocers generally. d23

PAIN-KILLER!

FOR OVER THIRTY YEARS

Perry Davis' Vegetable Pain-Killer

Has been tested in every variety of climate, and by almost every nation known to Americans.

It is the constant companion and estimable friend of the missionary and traveler, on sea and land, and no one should travel on our Lakes or Rivers without it.

It has been before the public over thirty years, and probably has a wider and better reputation than any other proprietary medicine of the present day. At this period there are but few unacquainted with the merits of the Pain-Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands today, unrivalled by all the great catalogue of family medicines. It is sufficient evidence of its virtues as a standard medicine, to know that it is now used in all parts of the world and that its sale is constantly increasing. No curative agent has had such wide spread sale or given such universal satisfaction. It is a purely vegetable compound, and perfectly safe in unskillful hands.

After thirty years trial, it is still receiving the most unqualified testimonials to its virtues, from persons of the highest character and responsibility. Physicians of the first respectability, recommend it as a most effectual preparation for the extinction of pain. It is not only the best remedy ever known for Bruises, Cuts, Burns, &c., but for Dysentery or Cholera or any sort of bowel complaint, it is a remedy unsurpassed for efficiency and rapidity of action. In the great cities of India, and other hot climates, it has become the Standard Medicine for all such complaints, as well as for Dyspepsia, Liver Complaints, and other kindred disorders. For Coughs and Colds, Canker, Asthma, and Rheumatic difficulties, it has been proved by the most abundant and convincing testimony to be an invaluable medicine.

BEWARE OF ALL IMITATIONS.

The Pain-Killer is sold by all respectable druggists throughout the United States and foreign countries.
Prices—25 cents, 50 cents and $1 per bottle.

MONDAY, DECEMBER, 29, 1873.

DEVONSHIRE CREAM.—One of the noted luxuries of the west of England is Devonshire cream, or clotted cream. The method of its preparation is as follows: From six to eight quarts of milk are strained into a thick earthen-ware pan or crock, which when new, is prepared for use by being stood in clean cold water for several days, and then scalded three or four times with skimmed milk. The pans may be used if they are scalded in hot bran and left to stand with the bran in them for twenty four hours. The milk being strained in the pans is stood in a cool room from nine to fourteen hours according to the temperature. It is then carefully moved to the top of the stove or range, or placed over a bright fire (not too near it,) and slowly heated—so that at the end of a half hour the cream will have shrunken away from the sides of the pan and gathered into large wrinkles, the milk at the sides of the pan commencing to simmer. The pan is then carefully returned to the cool room and left about ten hours, when the cream is skimmed off. This cream is very delicious to use on fruit or preserves, and is esteemed a great luxury—selling for about the price per pound of the best butter.

CHEAP ICE-HOUSES.—At a meeting of the Elmira Farmers' Club. W. A. Armstrong said that a cheap ice-house could be made out of a simple well-roofed inclosure, without hollow walls or pits, or other costly apparatus. He leaves six inches of space next the sides all around, into which he rams clean sawdust closely, and covers the ice when packed with a foot of the dust. The ice is cut into large blocks and made to fit at the joints as closely as convenient, but where the edges are jagged he fills in with pounded ice sawdust—the latter being the cheapest. Drainage is important, but if the house stands on porous soil, or is so elevated that the water will run off readily, it answers every purpose.

He had kept ice several years in such a building, nine feet square and the same in hight, the sides being only of inch boards. When ice is taken out, be careful to keep all cavities covered with sawdust, or it will waste away rapidly. In answer to a question as to the cost of a house fourteen feet square, he said that $50 would pay for it and the sawdust; and built of cheap lumber it might cost only $25. In packing, spent tan or cut straw would answer nearly as well as sawdust.

PUMPKINS FOR STOCK.—The different opinions of farmers as to the value of pumpkins for milch cows and other stock is believed by a correspondent to be the result of different ways of feeding them. In a hurry to clear a field, farmers will give their cattle a surfeit of pumpkins for a day or two, then for a day or two perhaps none, and thus alternate feasts and fasts, and conclude pumpkins are worthless or worse. The writer says he feeds pumpkins until the snow flies. He feeds regularly, once a day, from one to three pumpkins per head, never more, and finds them greatly conducive to the health of stock, besides greatly increasing the quantity and quality of the butter made. Pumpkin made butter will readily pass for "golden" or "gilt-edged" without the use of coloring.

Williams' Jamaica Ginger

For relief and cure of Colds, Cholera-morbus, Summer Complaints and Indigestion. A delicious drink for hot weather. Many spurious preparations are in market. The genuine bears our trade-mark, "THE LAUGHING HEAD."

Fire! Fire! Fire!

Make Sure

Against losses by fire by insuring in first class companies, and such as are fully able to meet their liabilities. The time has gone by when "one Policy is as good as another." Consider the following facts:—

THE ÆTNA, of Hartford,

is the largest Company in the United States. The Losses paid by it at the Boston and Chicago fires were greater than the combined capital of TWENTY ordinary Companies. It has paid in all over

$39,000,000,

and has now about $6,000,000, with which to offer indemnity to property holders in the future.

The Insurance Company of North America

is the Oldest Stock Company in the United States. It has Assets of $3,270,739, and has paid Losses to the amount of

$25,000,000.

The Royal, of Liverpool,

has Assets amounting to

$11,000,000.

In addition to these I have the agency of the German American, of New York, the Scottish Commercial, of Glasgow, the Hartford, of Hartford, the Orient, of Hartford and the Roger Williams of Providence.

All classes of property covered at current rates.

Dwelling houses and their contents insured AT VERY LOW RATES.

Lucius D. Davis,

DAILY NEWS BUILDING.

In the wonderful medicine to which the afflicted are above pointed for relief, the discoverer believes he has combined *in harmony* more of Nature's most sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt Rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful purifying and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. For the cure of **Habitual Constipation** of the bowels it is a never failing remedy, and those who have used it for this purpose are loud in its praise.

The proprietor offers $1,000 reward for a medicine that will equal it for the cure of all the diseases for which it is recommended.

Sold by druggists at $1 per bottle. Prepared by R. V. Pierce, M. D., Sole Proprietor, at his Chemical Laboratory, 133 Seneca street, Buffalo, N. Y. Send your address for a pamphlet.

SINGER

Sewing Machines.

AS ALL SEWING MACHINE AGENTS CLAIM TO SELL THE BEST MACHINE,

It would be well for parties who contemplate purchasing, to notice the following, which will settle all doubts in an unbiased mind.

In 1872 the **Singer M'f'g. Co. sold 219,758 machines, being 45,000 more machines than any other Company** and over ONE QUARTER of all the machines SOLD during that year, thus proving their popularity.

Sold on monthly installments, and thorough instructions given at your home.

Iron in the Blood

PERUVIAN
AN IRON TONIC
SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP *blown in the glass.*

City of Rochester

7 Per Cent. Bonds,

ISSUED FOR CONSTRUCTION OF WATER-WORKS UNDER ACT OF LEGISLATURE,

PASSED APRIL 27, 1872.

Rochester possesses the elements of a prosperity unexcelled, if equalled, by any other city in this State. It is the centre of trade to a surrounding population of about 500,000, to whom the means of transportation are furnished by Railroads radiating from the city in eleven different directions.

Its Indebtedness, excluding this Loan, is less than $1,850,000, while it has Public Property amounting to about $2,850,000, and Private Real Estate valued at $70,000,000.

The bonds are issued in either Coupon or Registered form, the Registered being transferable at the office of the Union Trust Company of New York, where both principal and interest is payable.

The expenditure of moneys derived from their sale is directed by the Mayor of the city and the Board of Commissioners.

PRICE PAR AND INTEREST. CIRCULARS UPON APPLICATION.
